

# THE BRAIN & SPINE NETWORK: QUALITY CARE FOR YOUR EMPLOYEES

Baptist Memorial Health Care and Semmes Murphey Clinic have formed the Brain & Spine Network Center of Excellence, bringing together two of the region's most trusted health care providers. The Brain & Spine Network provides high-quality care for patients with acute or chronic back and neck issues, from prevention through long-term care.

## EXCELLENCE IN EMPLOYEE CARE, SERVICE AND SUPPORT

As a Center of Excellence and the regional leader in brain and spine care, the Brain & Spine Network has outperformed the market in providing high-quality, non-invasive treatment and care while controlling costs through conservative treatment and transparent pricing.

- 85% fewer inpatient surgical interventions than the market
- Four out of five patients required no invasive treatment
- 17% of patients progressed to an outpatient surgical setting
- Fewer than 3% were recommended for inpatient surgery

## BENEFITS AND VALUE

### For you and your business

- Significant employer cost savings because the Center of Excellence uses less expensive treatment options as often as possible
- 14% quicker return to work compared to the national average
- Cost transparency through predictable and set pricing for neurological care

### For your employees

- Patient-centered care with access to high-caliber clinical providers
- Avoidance of unnecessary high-cost, invasive treatments
- Quicker return to work, reduced pain and increased quality of life
- Access to patient education, screenings and nurse navigators for a seamless experience
- Lower or no out-of-pocket expense
- High satisfaction with Center of Excellence program neurological care

## SERVICES

Our services are designed to provide effective, outcome-focused inpatient, outpatient and office care for your employees at a predictable, bundled price. And in the rare cases where surgery is necessary, facility and professional charges throughout the patient's hospitalization are included.

- Evaluation services
- Physical therapy
- Pain management blocks
- Spinal fusion and arthrodesis
- Neck spinal fusion
- Inpatient back, neck and spinal procedures
- Cranial catheter placement
- Craniotomy
- Cervical disk surgery
- Laminotomy/low back disk surgery

We provide your health plan members with proven neurological services and clinical outcomes to improve your employees' quality of life and your company's productivity and bottom line.

Let us show you how the Brain & Spine Network Center of Excellence can benefit you and your employees.
